EXAMINER'S AMENDMENT

Claims 13-16, 21 and 22 have been allowed over the prior art.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: cancel claims 1-12 and 17-20 as claims nonelected without traverse.

The following is an examiner's statement of reasons for allowance: The examiner agrees with the arguments presented in the amendment filed 10/20/03 regarding the prior art's lack of a teaching of keeping the pins at a peak position for an amount of time. Kobayashi teaches descending the collet to the chip, sucking the collet and chip securely together, and then moving both the pins under the chip and the collet upwards, the collet continuing to move upwards when the collet reaches its apex (8, 47-9, 9+).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
